

APM Customs Brokerage

This checklist covers desktop, mobile, link, form, browser, and accessibility checks as required by Section 12 (Deliverables) and Section 14 (Acceptance Checklist) of the project brief. Testers should check each box, note pass/fail, and record the browser or device used where relevant.

1. Responsive Layout - Screen Widths

✓	Test Item	Expected Result	Status / Notes
■	Page renders correctly at 360px width (mobile)	No horizontal scroll; hamburger nav visible; content stacks in one column	
■	Page renders correctly at 768px width (tablet)	Layout adjusts per Bootstrap breakpoints; nav still collapsed or transitioning	
■	Page renders correctly at 992px+ width (navbar breakpoint)	Navbar expands to full inline menu at lg breakpoint (navbar-expand-lg)	
■	Page renders correctly at 1024px width (small laptop)	Service/value cards reflow into multi-column grid	
■	Page renders correctly at 1440px width (large desktop)	Content stays centered within .container; no excessive whitespace stretching	
■	No element overflows viewport at any width tested	No horizontal scrollbar appears at any breakpoint	

2. Navigation and Anchor Links

✓	Test Item	Expected Result	Status / Notes
■	Home/logo link scrolls to #hero	Smooth scroll to hero section	
■	About link scrolls to #about	Smooth scroll to About APM section	
■	Services link scrolls to #services	Smooth scroll to Core Services section	
■	Why Choose Us link scrolls to #why	Smooth scroll to Why Choose APM section	
■	Contact link scrolls to #cta-section	Smooth scroll to CTA section	
■	"Request a Consultation" nav CTA scrolls to #contact-info	Smooth scroll to Contact Us section	

✓	Test Item	Expected Result	Status / Notes
■	Footer quick links (About, Services, Process, Contact) all work	Each scrolls to correct section, no 404s or dead anchors	
■	Navbar remains visible/sticky while scrolling (sticky-top)	Navbar stays pinned to top of viewport on scroll	

3. Mobile Navigation (Hamburger Menu)

✓	Test Item	Expected Result	Status / Notes
■	Tap hamburger icon below 992px width	Mobile menu opens	
■	Navbar position stays fixed while menu is open	Navbar/logo/CTA do not shift position; only menu panel toggles	
■	Tap a nav link while mobile menu is open	Menu closes automatically after link is clicked	
■	Tap outside the open mobile menu	Menu closes on outside click	
■	Resize/rotate device from mobile to desktop width while menu is open	Menu auto-closes and reverts to static desktop nav	
■	Hamburger icon updates correctly	Screen reader announces toggle state changes	

4. Language Switcher (EN / CN / JP)

✓	Test Item	Expected Result	Status / Notes
■	Click "CN" option in language switcher	Page content translates via Google Translate widget	
■	Click "JP" option in language switcher	Page content translates to Japanese	
■	Click "EN" to revert	Page returns to original English text	
■	Loading indicator shows while translation is in progress	"Translating page..."	
■	Google Translate banner/toolbar is hidden	No default Google Translate top bar appears	
■	Switcher remains usable if Google Translate script fails to load	UI does not freeze	

5. Contact / Inquiry Form

✓	Test Item	Expected Result	Status / Notes
■	Submit form with all fields empty	Validation errors shown on every required field(Full name, Email, Phone, Service, Message)	
■	Enter invalid email format	Email field shows "Please enter a valid email address."	
■	Enter invalid phone format	Phone field shows "Please enter a valid phone number."	
■	Leave Message under 10 characters	Message field shows minlength validation error	
■	Correct an invalid field after error is shown	Error clears/re-validates live via input/change listeners	
■	Submit fully valid form	Submit button shows	
■	Successful EmailJS submission	Success banner	
■	Simulate EmailJS failure (e.g. offline)	Alert "Failed to send request. Please try again later." appears	
■	Honeypot field filled	Submission is silently blocked	

✓	Test Item	Expected Result	Status / Notes
■	Rapid double-click Submit button	Second submission blocked	
■	All form labels are visible and associated to inputs	Each input has a visible <label> with matching for/id	

6. Contact Details and Map

✓	Test Item	Expected Result	Status / Notes
■	Click phone number link (header/footer/contact section)	Opens native dialer via tel: link	
■	Click email link (footer/contact section)	Opens default mail client via mailto: link	
■	Google Map embed loads and displays correct pin	Embedded iframe shows APM Customs Brokerage location	
■	Facebook icon link in footer	Opens APM Facebook page	
■	Business hours text is correct and legible	Monday – Friday, 8:00 AM – 5:00 PM displayed under Contact	

7. Visual Feedback and Animations

✓	Test Item	Expected Result	Status / Notes
■	Hover over primary/outline buttons and nav links	Clear hover state change	
■	Tab through interactive elements with keyboard	Visible focus state on buttons, links, and form fields	
■	Scroll sections into view	Fade-up animation triggers once per section	
■	prefers-reduced-motion enabled in OS/browser settings	Fade-up and workflow rail animations	
■	Scroll through "How It Works" workflow section	Step markers activate in sequence	

8. Performance and Assets

✓	Test Item	Expected Result	Status / Notes
■	Check DevTools Network tab on page load	No 404 errors for CSS/JS/font/icon/image requests	
■	Check browser console on load and interaction	No JavaScript console errors	
■	Logo image (assets/images/logo.jpg) loads correctly	Visible in navbar, footer, and browser favicon tab	
■	Page load time on typical broadband connection	Reasonable load time	
■	CDN-hosted libraries (Bootstrap, Font Awesome, Google Fonts, EmailJS) load successfully	All external <link>/<script> tags resolve without errors	

9. Accessibility

✓	Test Item	Expected Result	Status / Notes
■	Run automated accessibility scan (e.g. axe, Lighthouse)	No missing-label violations	
■	Check heading hierarchy (h1 → h2 → h3...)	Logical order	
■	All images have descriptive alt text	Logo images include alt="APM Customs logo"	

✓	Test Item	Expected Result	Status / Notes
■	Language switcher and toggle button have ARIA attributes	role="group", aria-label, aria-pressed, aria-busy present and updating	
■	Site is fully operable via keyboard only (no mouse)	All nav links, form fields, buttons, and language switcher reachable	
■	Text contrast against backgrounds meets WCAG AA	Body text and buttons pass 4.5:1 contrast ratio minimum	

10. Browser and Device Compatibility

Browser / Device	Version Tested	Layout OK	Nav/Menu OK	Form OK	Notes
Google Chrome (desktop)		■	■	■	
Microsoft Edge (desktop)		■	■	■	
Mozilla Firefox (desktop)		■	■	■	
Mobile browser — Chrome (Android)		■	■	■	
Mobile browser — Safari (iOS)		■	■	■	

11. Link / Spelling

✓	Test Item	Expected Result	Status / Notes
■	Click every internal anchor link and footer link	No broken links; every link scrolls to an existing section id	
■	Review all body copy for spelling/grammar errors	No typos	
■	Confirm no Lorem Ipsum or placeholder text remains	APM-approved content	
■	Confirm contact details match APM-approved source	Address/phone/email match supervisor-confirmed company profile	
■	Confirm copyright year/footer text is correct	© 2026 APM Customs Brokerage. All rights reserved.
